

>> Improve interactions

eds.com

EDS Business Exchange Transform manages the translation, compliance check and supplemental business validations of electronic business documents within your entire trading community as an outsourced service.

Benefits

- Increases data accuracy
- Ensures industry compliance
- Reduces complexity
- Enhances flexibility

EDS currently handles the translation, compliance check and business validation of more than 480 million business transactions annually between more than 167,000 trading partners worldwide.

Features

Each feature within our offering supports a variety of major industry business and technology standards:

Compliance

- ASC X12
- EDIFACT
- NCPDP
- HL7
- NSF
- UB82
- HTML
- ebXML
- Proprietary

Any-to-any translation

- Flat files
- EDI
- XML

Business validation

- HIPAA
- UCCnet

Meeting complex challenges

In today's complex business world, clients require electronic interaction with multiple trading partners that use various transactions formats (either proprietary or standard); have various levels of automation; and have disparate systems ranging from high-volume processing mainframes to stand-alone workstations. Additionally, there is increasing complexity regarding security and privacy. Keeping up with this increasingly complex trading partner community proves increasingly challenging to the individual company.

Electronically exchange business transactions

EDS Business Exchange Transform manages the translation of business transactions between trading partners' computer systems in an outsourced model. This frees your organization from having to keep up with technical issues, so you can focus on your core competencies and on business relationships with trading partners.

Advantages

- Straightforward usage-based pricing
- Reduced capital investments
- Rapid implementation and migration
- Scalable to seasonality and growth

This service has been tested and certified by eBusinessReady™ for interoperability.

One-stop shop for all your e-commerce needs

EDS Business Exchange Services addresses all your e-commerce needs. We offer transaction-related services ranging from connectivity, translation and media conversion to extended archiving. We also offer trading community-related services such as trading partner management, and Web- and PC-based supply chain management tools for smaller trading partners.

Flexible pricing options

EDS Business Exchange Services are competitively priced and tailored to your needs. Usage-based pricing consists of a simple fee per transaction with volume discounts. There are no hidden charges to you or your trading partner. The service can also be priced on a subscription or fixed-price basis.

Security and disaster recovery

Our infrastructure provides the utmost in site and data security with built-in redundancies. EDS' multiple-site disaster recovery network provides proven backup support by protecting and redirecting your transactions in the event of a disaster.

Responsive service

Providing excellent services to our clients is EDS' bread and butter. Our operations center monitors, troubleshoots and solves problems 24x7. We also monitor individual account performance and make it visible to senior management and clients using our unique Service Excellence Dashboard.

EDS. Technology services. Business solutions.

We help clients improve their systems and processes so they can become more productive, manage change and grow.
